

## How to Order Caris Molecular Intelligence for International

1

Contact  
Caris

**Contact Caris Life Sciences®** to obtain the requisition form and tumour specimen shipper kit. The latest requisition can be downloaded from the website [www.CarisMolecularIntelligence.com/ordering\\_information](http://www.CarisMolecularIntelligence.com/ordering_information).

*Note: The requisition can also be submitted through MI Portal, contact Customer Services to set up an account.*

2

Complete  
Requisition

**Complete ALL fields on the requisition form**, following the instructions on the reverse of this document.

**The requisition must have the signature of either the treating physician or pathologist** requesting Caris Molecular Intelligence®

*Note: If a surgical procedure is planned to collect specimen, provide the anticipated specimen information, date and time of procedure and the location/facility information.*

3

Send  
Documentation

**Attach Pathology Report** to the completed *Tumour Profiling Requisition* and send the documents to Caris.

- Fax: 00 800 12 12 32 32 or 00 41 21 533 53 01
- E-mail: [EUCustomerServices@carisls.com](mailto:EUCustomerServices@carisls.com).
- Upload: to MI Portal

*Note: If provided documentation is incomplete, Customer Services may contact your office to obtain missing information.*

4

Ship  
Specimen

**Prepare the specimen** as outlined on the back of the *Tumour Profiling Requisition*. Place both the specimen and the completed requisition in the shipper kit provided and ship to Caris.

*Note: Due to shipment times, contact customer service at 00 800 12 12 30 30 prior to shipment of fresh tissue.*

5

Review  
Report

**Receive the final report** via email within approximately 14-days of case activation. **The case will be activated once all documents, billing information and specimen have been received by Caris.**

The Report can be downloaded through MI Portal upon case completion.
